Hiring: Technical Trainer – ChatGPT for Developers

Xavric Solutions is hiring a Technical Trainer to deliver the program 'ChatGPT for Developers: Building AI-Powered Applications' — focused on AI APIs, automation, and real-world application development.

Role Overview

Deliver offline training on:
• ChatGPT & OpenAI API integration
• Python / Node.js developer workflows
• Prompt engineering for developers
• Code generation, debugging & automation
• Image generation (DALL·E) & multimedia APIs
• Embeddings, vector search & semantic apps
• Fine-tuning & custom LLM models
• AI safety, moderation & production deployment

Requirements

• Experience: 0 – 5 years (Freshers welcome)
• College professors & IT professionals can apply as part-time
• Strong skills in Python and/or Node.js
• Experience with REST APIs, JSON, and developer tools
• Understanding of LLMs (GPT, Claude, Gemini, etc.)
• Ability to guide students in building real-world AI projects
• Good communication and demo-driven teaching style

Location & Mode

• Location: Bhopal
• Mode: Offline (in-center)
