

Hiring: Technical Trainer – C++ Programming Mastery

Xavric Solutions is hiring a Technical Trainer to deliver our course 'C++ Programming Mastery: From Fundamentals to Object-Oriented Design' — focused on core programming, OOP, STL, and real-world C++ applications.

Role Overview

Deliver offline training on:

- C++ basics: syntax, variables, data types, operators
- Control flow, loops & problem-solving
- Arrays, strings, pointers & structures
- Functions, recursion & modular programming
- Object-Oriented Programming (OOP): classes, objects, inheritance, polymorphism
- File handling, exception handling & STL
- Modern C++ (C++11/14/17) & memory management
- Hands-on mini-projects and capstone application development

Requirements

- Experience: 0 – 5 years (Freshers welcome)
- College professors & IT professionals can apply as part-time
- Strong understanding of core programming concepts in C++
- Ability to teach OOP, STL, file handling, and modern C++ concepts
- Good coding, debugging, and explanation skills
- Passion for teaching and helping beginners become job-ready

Location & Mode

- Location: Bhopal
- Mode: Offline (in-center)
