Hiring: Technical Trainer – C Programming Essentials

Xavric Solutions is hiring a Technical Trainer to deliver our course 'C Programming Essentials: From Syntax to Systems Programming' — focused on core C programming, memory management, and system-level foundations.

Role Overview

Deliver offline training on:
• C fundamentals: syntax, data types, operators & control flow
• Functions, recursion, arrays & strings
• Pointers, dynamic memory allocation & memory management
• Structures, unions, bit fields & optimizations
• File handling (text & binary), command-line I/O
• Preprocessor directives & modular programming
• Error handling, debugging (gdb/IDE) & robust coding practices
• Intro to data structures in C (linked list, stack, queue, tree)

Requirements

• Experience: 0 – 5 years (Freshers welcome)
• College professors & IT professionals can apply as part-time
• Strong understanding of C programming and problem-solving
• Good grip on pointers, memory management, and file handling
• Ability to explain concepts with practical coding examples
• Passion for teaching beginners and aspiring system-level developers

Location & Mode

• Location: Bhopal
• Mode: Offline (in-center)
