

Hiring: Technical Trainer – Cybersecurity Essentials / SOC Analyst Training

Xavric Solutions is hiring a Technical Trainer to deliver our 'Cybersecurity Essentials – SOC Basics, Network+ Review, SIEM Intro' program — focused on entry-level SOC skills, threat detection, SIEM, and incident response.

Role Overview

Deliver offline training on:

- Cybersecurity foundations: CIA triad, threat landscape, malware, phishing, ransomware
- Networking & security basics: OSI/TCP-IP, ports, firewalls, NAT, VPNs
- OS security & hardening (Windows & Linux), logging & patching
- Threats & vulnerabilities: social engineering, DoS, MITM, brute force, insider threats
- Security controls: firewalls, IDS/IPS, access control, Zero Trust
- SOC operations, alert triage, ticketing tools & incident lifecycle
- SIEM fundamentals: log collection, correlation & dashboards (Splunk, ELK, QRadar overview)
- Incident detection, response, containment & root cause analysis
- Vulnerability assessment & basic pentesting (Nmap, Nessus/OpenVAS)
- Cloud security basics & IAM, MFA & audit logging
- Governance, risk & compliance (ISO 27001, NIST, GDPR basics)
- SOC-style labs, simulations & capstone investigation guidance

Requirements

- Experience: 0 – 5 years (Freshers welcome)
- College professors & IT professionals can apply as part-time
- Good understanding of networking, operating systems & security concepts
- Hands-on familiarity with tools like Wireshark, Nmap, SIEM (Splunk/ELK), Nessus/OpenVAS, Kali Linux (preferred)
- Interest or experience in SOC operations, blue teaming or threat monitoring
- Ability to explain concepts using real-world attack scenarios, logs & case studies
- Strong communication skills and passion for training future SOC analysts

Location & Mode

- Location: Bhopal
- Mode: Offline (in-center)
