

Hiring: Technical Trainer – Advanced .NET Full Stack Developer

Xavric Solutions is hiring a Technical Trainer to deliver our 'Advanced .NET Full Stack Developer Program' — a career-focused course on building and deploying enterprise applications using .NET 7.

Role Overview

Deliver offline training on:

- C# programming and object-oriented concepts
- .NET 7, ASP.NET Core MVC & Web APIs
- Entity Framework Core and database integration
- RESTful APIs & microservices design and consumption
- Authentication, authorization & production-grade security
- Logging, error handling & performance best practices
- Asynchronous programming, multithreading & Docker containerization
- Full stack project guidance and deployment workflows

Requirements

- Experience: 0 – 5 years (Freshers welcome)
- College professors & IT professionals can apply as part-time
- Strong hands-on experience in C#, .NET Core/.NET 7, ASP.NET Core
- Knowledge of Entity Framework Core, REST APIs & SQL databases
- Exposure to microservices, Docker, and cloud concepts is a plus
- Ability to guide students through real-world projects and code reviews
- Good communication skills and passion for mentoring developers

Location & Mode

- Location: Bhopal
- Mode: Offline (in-center)
