

Hiring: Technical Trainer – Java Programming Essentials

Xavric Solutions is hiring a Technical Trainer to deliver our course 'Java Programming Essentials: From Fundamentals to Object-Oriented Design' — covering core to advanced Java, collections, exceptions, GUI programming, and project development.

Role Overview

Deliver offline training on:

- Core Java syntax, data types, operators & control flow
- Arrays, strings & modular programming
- Object-Oriented Programming (OOP): classes, objects, inheritance, polymorphism
- Exception handling & file I/O
- Java Collections (ArrayList, LinkedList, Stack, Queue, HashMap)
- GUI programming (Swing/AWT) & event handling
- Intro to multithreading, packages & JDBC
- Hands-on labs, real-world applications & capstone project guidance

Requirements

- Experience: 0 – 5 years (Freshers welcome)
- College professors & IT professionals can apply as part-time
- Strong understanding of Core Java & OOP
- Knowledge of Collections Framework, file handling & exception handling
- Ability to explain concepts with coding demonstrations
- Good communication skills & passion for teaching beginner-level programmers

Location & Mode

- Location: Bhopal
- Mode: Offline (in-center)
