

Hiring: Technical Trainer – Python Programming Essentials

Xavric Solutions is hiring a Technical Trainer to deliver our course 'Python Programming Essentials: From Basics to Automation' — focusing on core Python programming, scripting, and real-world automation.

Role Overview

Deliver offline training on:

- Python basics: syntax, variables, data types & indentation
- Functions, modules & reusable code
- Strings, collections & iterables
- Conditionals, loops & comprehensions
- File handling, OS operations & logging
- Error handling, exceptions & regular expressions
- Virtual environments, pip & project isolation
- Automation scripts for files, text & data processing
- Labs and capstone automation projects

Requirements

- Experience: 0 – 5 years (Freshers welcome)
- College professors & IT professionals can apply as part-time
- Strong understanding of Core Python (functions, data structures, file handling)
- Experience writing automation scripts or small tools
- Familiarity with virtual environments and pip
- Ability to explain concepts with live coding & practical examples
- Good communication skills and interest in teaching beginners

Location & Mode

- Location: Bhopal
- Mode: Offline (in-center)
